

bb design & build

A Redlands based boutique building company, is committed to constantly meet and exceed your expectations through provision of the highest quality individually designed homes while maintaining competitive pricing. Our designs are cleverly tailored to passively embrace the favourable aspects of your allotment, so that your living areas capture cooling summer breezes, whilst also maximising warming solar access during winter months. We use water saving fixtures and energy saving light fittings coupled with strategic use of natural and sky lighting. This in turn translates into long term savings through lower energy and water bills. As a building company we are committed to the future of our environment and resources by incorporating Clean Site practices.

Individually Designed

If you have an ideal home in mind, but can't get it onto paper, then BB Design & Builds team of designers will individually design a unique home to your specifications

Standard Plans

Our current range of modern standard designs, have fantastic street appeal, quality inclusions and can be tailored to suit.

Multiple Dwellings

From modern duplex designs to Townhouses and units...you can choose from one of our standard range of duplexes or have our design team create plans to suit.
